IN the year 1858, just thirty years ago, Messrs. HUTZLER BROS. began business in a small store at the corner of Howard and Clay Streets, the exact site of which now forms the NORTHEAST Corner of their PRESENT building.

After a few years' experience in the old method of doing business, they determined to INAUGURATE a system on more modern principles, by establishing a STRICT ONE-PRICE SYSTEM; by REFUNDING MONEY for all purchases unsatisfactory, and by NOT IMPORTUNING customers to purchase. They endeavored to keep nothing but strictly reliable goods, and made it their special effort to show the latest PARISIAN AND EUROPEAN NOVELTIES as soon as they appeared. Their efforts were appreciated, and in a short time they were compelled by increasing business to extend, and in 1874 purchased the building No. 212 North Howard St., and erected a store which embodied all then existing improvements. In 1881, want of room compelled them to make an addition by building a large wing in the rear, extending to Clay St. In 1887 they bought the three adjoining properties on Howard St. up to Clay, and have just completed a building which is the handsomest structure of its kind in the United States. It has a frontage of 80 feet on Howard St., with a depth of 120, and has been erected in a most SUBSTANTIAL manner, securing to patrons all possible conveniences in LIGHT, VENTILATION and ease of access. The in-

terior is furnished entirely in hard woods, chiefly quartered oak; the front is built of Nova Scotia Grey Stone, a beautiful and artistic design, elaborately carved with arabesque heads and foliage. This same idea has been carried out in the interior in the capitals of the iron columns, and in the artistic carving of Oak Elevator, Stair Cases and Offices. In Harmony with this, are also the Novel Gas Fixtures and the Wrought Iron Grill Work of the Offices and Stairways; the whole forming a most beautiful ensemble.

To save the time of customers, the "Cable Railway Cash System", which for speed is unexcelled, has been adopted. The Cash can travel to Cashier and return to customer within 15 SECONDS. To further save time, Salesladies will be allowed to wrap packages, when required.

The increase of room in this large building will be devoted to an extension of existing departments, and only such lines have been added as are in unison with the goods heretofore kept. The Basement, first and second floors, will be used for Retail, the third floor for Wholesale, and the fourth and fifth floors will be occupied by a complete Dress-Making Department, including a special branch for the making of Wraps, Riding Habits and Tailor-Made Suits.

The Principles that have been the cause of their past success will be strictly adhered to.

Cleveland's plurality, 26,538.

Total vote 1884, 10,044,002.

Garfield's plurality, 4,503.

Total vote 1880, 9,222,719 *ef*.

a. Fusion—In 1884 the Cleveland and Butler men supported common electoral tickets in Iowa and Nebraska; the Blaine and Butler men in Missouri and West Virginia. In the above table the entire fusion vote is credited to Mr. Cleveland or to Mr. Blaine as the case may be, as there is no way of determining the proportion of the united strength contributed by the Butler wing. In Maine, in 1880, the Hancock and one section of the Weaver party supported a fusion ticket. The entire vote cast for the ticket is in the table credited to General Hancock.

b. The vote for the 13th elector. In Michigan the Cleveland and Butler men voted for 12 electors in common, but for the purpose of preserving a record of the respective strength of each party they nominated different persons as 13th elector.

c. Aggregate vote cast for the two separate Garfield electoral tickets voted for in Louisiana.

d. Aggregate vote cast for the two separate Hancock electoral tickets voted for in Virginia.

e. Inclusive of 707 votes cast for Phelps, Anti-Mason.

f. A number of votes were in different States returned as "scattering." In some instances they may have been for "scrub" candidates, or may have been for some of the minor candidates in the above table; but nine-tenths of them are the result of mis-spelling of electors' names on some of the regular tickets. As the vote for the highest elector is generally given in the table, the addition of these "scattering" votes would make the total vote appear larger than it actually was.

POSTAL MATTERS.

RATES OF DOMESTIC AND FOREIGN POSTAGE, MONEY ORDERS, &c.

The following are the rates of postage charged on mail matter within the United States:

FIRST CLASS.—Rate two cents per ounce or fraction thereof. Includes Letters and all other written matter or matter by type writer, in whole or in part, drawings, plans or designs, (drawn or sketched by hand,) whether sealed or unsealed, and all matter sealed, nailed sewed, tied or fastened in such manner that it cannot be easily examined. First-Class matter when prepaid at one rate (two cents) will be forwarded, and additional postage, if any, collected at destination; it will also be forwarded indefinitely from place to place until it reaches the party addressed, without additional postage.

Postal Cards are unmailable with any writing, printing or other impress on the *address side*, except such as may be necessary for the proper addressing of the same, or with anything pasted or attached to them on either side except an address tag or label.

LOCAL OR DROP LETTERS two cents per ounce or fraction thereof.

SECOND CLASS—Newspapers and periodicals and other regularly entered publications on which the postage is prepaid by the publisher. A special rate of one cent for four ounces is made for all second-class matter mailed by other than publishers or newsdealers.

THIRD CLASS.—*One Cent* for each two ounces or fraction thereof. Includes books, circulars, proof sheets, corrected proof sheets, accompanied by manuscript; transient newspapers and periodicals not entered as second-class matter; reproductions by hectograph and similar instruments; photographs, maps printed on paper with necessary rollers; and all matter wholly in print not specified under second-class matter. In unsealed wrappers only (all matter inclosed in sealed envelopes, notched at the sides or corners, must pay letter rates.) Limit of weight four pounds, except for a single book, which is unlimited in weight.

On matter of this class, or on its wrapper or envelope, or on a tag or label attached, the sender may either write or print his own name, occupation, and residence or business address, preceded by the word "from," and may make marks (other than by written or printed words) to call attention to any word or passage in text, and may correct any typographical errors. There may also be placed upon the blank leaves or cover of any or other matter of this class a simple manuscript dedication or inscription not in the nature of personal correspondence. There may also be placed upon the envelope, wrapper, tag or label of matter of this class any printing that is not in its character unmailable as third-class matter, provided there be sufficient space for a legible superscription and the necessary postage stamps.

FOURTH CLASS.—All merchandise, and other matter not included in the three preceding classes, so prepared for mailing as to be easily withdrawn from the wrapper and examined. Limit of weight four pounds. Postage *One Cent* per ounce or fraction thereof.

With matter of this class, properly prepaid as such, the sender may enclose third class matter; and he may write or print upon the cover, wrapper, or label thereof his name, occupation, residence or business address, preceded by the word "from," and any marks, numbers, names, or letters for purpose of description. He may also print upon the same anything that is not unmailable as printed matter, and that is not in the nature of personal correspondence, provided there be left sufficient space for a legible superscription and the necessary postage stamps.

UNMAILABLE.—Explosive and inflammable substances, spiritous, vinous, malt or fermented liquors, and printed or written matter of an obscene nature.

IMMEDIATE DELIVERY.—A special stamp of *Ten Cents* in addition to the regular postage, entitles mail matter to immediate delivery upon its arrival at any post office in the United States.

Specials are delivered from 7 a. m. to 11 p. m. Sundays until 10 a. m.

REGISTRY DEPARTMENT.—Office hours from 9 a. m. to 6 p. m. Any article not prohibited in ordinary mail can be registered by placing on it a *Ten (10) Cent Stamp* in addition to its proper postage.
